

National Safety - Stand-Down To Prevent Falls in Construction May 2-6, 2016

You can make a difference!!!

[Stand-Down Kick-Off Video](#)

- As part of PPD's Stand-Down this week please do the following:
 - Inspect all ladders owned by and used by PPD staff this week.
 - Inspect all equipment used as a part of Personal Fall Arrest Systems.
 - Red tag any equipment that is not safe
 - Make recommendations to management for fall restraint, temporary guardrails and other equipment to prevent falls.

- Supervisors engage your staff in commonsense discussion on preventing falls.

- Alert you supervisor of known dangers in the work place so corrective action can be taken.

- Contact the Physical Plant, Training and Compliance Office at tco@uvm.edu or 6-SAFE for assistance in making your jobsite safe from falls.
